

All schools within the Prince Regent Street Trust recognise the importance of play and giving children real life experiences to develop their skills across the curriculum.

We hope that this booklet will provide you with some ideas of activities to enjoy with your child during their time in Early Years. Most of them are easily completed in a short time and shouldn't require much forward planning or equipment. They will however provide your child with lasting memories and experiences to draw upon as they progress through school.

We value our partnership in your child's learning journey and will offer children the opportunity to do many of the things listed in here during their time in Nursery and Reception. We would love your help and support at home in trying to provide each and every child with all 100 experiences in the coming months.

Have fun and keep us updated of your child's experiences.

Thanks for your support.

The Early Years Team (Prince Regent Street Trust)

100 Things To Do Before You Leave Early Years

1

Go on a bike ride Completed:

2

Climb a tree Completed:

91

Cook outside

92
